SINOSSIUno strano QR Code, letto dallo smartphone, porta il protagonista ad andare verso delle coordinate che scoprirà essere legate a un luogo misterioso e bizzarro. Qui incontrerà dei personaggi assurdi, tutti vestiti come le tipiche maschere italiane, quali Colombina, Brighella e Balanzone, che lo condurranno fino alla maschera principale, Arlecchino. Il nostro protagonista, bisognoso di lavoro, subirà in modo succube gli atteggiamenti delle maschere e, soprattutto, di Arlecchino che gli offrirà un lavoro allettante ma strano: prelevare dei Bitcoin persi in un computer gettato nella ex discarica di Malagrotta. Infatti, nel futuro, la discarica, completamente bonificata, è diventata un parco, luogo di eventi e di festival, tra cui il Virtual Tomorrowland, una versione futura del famoso festival di musica elettronica belga, seguito attraverso caschi virtuali dai ragazzi di tutto il mondo. Dove nulla sembra quello che è, il nostro protagonista accetterà l'incarico e si troverà in situazioni assurde che lo porteranno a cambiare il suo asservito atteggiamento.

BIOGRAFIAGiampiero Rossi, nato a Roma, laureato in Chimica all'Università degli Studi di Roma La Sapienza, scrivo con lo pseudonimo di G.P. Rossi lavoro nelle Telecomunicazioni, attualmente mi occupo di Blockchain, di Embedded SIM e di Digital Identity.
