"Pressestimmen 'A masterful study of command, control, communications, and even intelligence of all the major combatants during the Waterloo Campaign. Destined to become the gold standard for those studying how armies were controlled and decisions made during the Waterloo Campaign.'--Robert Burnham, editor-in-chief, The Napoleonic Series'This is an outstanding, scholarly work that unearths many facts about and facets of a subject long considered to have been full explored. No serious student of this battle or, indeed, this epoch, can afford to be without it.'--Patrick Mercer 'Military History Monthly 'John Hussey's study of the Waterloo campaign with its multiple armies and multiple battles is monumental and magisterial. The final word on Waterloo will never be written but this work is a close run thing.'--Dr. John Peaty, FRGS FRHistS'These two volumes represent a comprehensive study of the events of 1815 that surpasses all previous studies of the subject. Future historians will be hard pressed to improve upon such a work! ... Every stage of the story of 1815 is handled in great detail with the author having used many sources, and every chapter presents new information and tells the story of events in such a way that this work is a veritable encyclopaedia of the subject... If your family want to know what you want for Christmas, then make sure these two books are at the top of your wish list.'--The Waterloo Journal Über den Autor und weitere Mitwirkende After reading History at Cambridge, John Hussey spent 30 years working for BP around the world including the Congo in the 1960s and Nigeria in the 1970s. He was awarded an OBE in 1971. He has written many articles on British military history, mainly on the Napoleonic and First World Wars, and served as a member of the International Historical Committee for the restoration of the

Waterloo Battlefield. He is the author of Malborough: Hero of Blenheim (Weidenfeld & Nicolson, 2004) and is a Fellow of the Royal Historical Society."
